Q3|2022

R750

Connectivity Front¹

Front with Bezel

Front without Bezel

Bezel

Lock	Bezel with keyed lock to prevent its removal or unauthorized access to SSDs
LCD	LCD Display & control panel for easy monitoring of host name, IP address, Power consumption and thermal output

Front

LED 1-2	Status LED indicators. For more information see the Status LED indicators section in the server manual.
USB 1	USB 2.0
VGA 1	1 x DB-15 - VGA - disabled/non-operable
M-USB1	iDRAC Direct port - micro USB 2.0 - disabled/non-operable
RAID	5 x Enterprise NVMe basic configuration (6.98 TB Storage) Up to 24 x NVME SSD Up to 160.68 TB of usable Raid-5 space (with 7.68 TB optional drives)
PWR	Power button - Indicates if the system is turned on or off.
Rail Kit	ReadyRails II™ sliding rails for tool-less mounting in 4-post racks with square or unthreaded round holes

1 - Illustrated model with 2 x RTX A5000, 8 x 3G-SDI input, and 5 x NVME RAID options.
Back panel and final specification may change based on the chosen options.

Connectivity Back¹

NVIDIA RTX A5000 Standard GPU

OUT 1-8 8 x Display Port 1.4 - Can be converted to HDMI 2.0 or DVI-D using passive/active adapters. Use only with compliant active adapters for DVI and HDMI 2.0 when resolution is above 1080p60. All outputs on a server MUST be configured at the same resolution, frequency and timings.

3G-SDI input card (available options: none, 1x 3GSDI, 4x 3GSDI, 8x 3GSDI or 1x 12G-SDI)

RS-422 1 x RS-422 port - disabled/non-operable

IN 1-8 8 x mini-DIN (8x 3G-SDI) support up to 1080p60. Connectors can be linked for quad-link 4K support up to 4096x2160p60. As illustrated in this document. Other options are supported.

9 disabled/non-operable

Motherboard

iDrac 1 x RJ-45 iDRAC (Integrated Dell Remote Access Controller) for remote support & configuration of BIOS or RAID

SERIAL 1 1 x Serial port - disabled/non-operable

VGA 2 1 x DB-15 - VGA - disabled/non-operable

USB 2 USB 2.0 compliant

USB 3 USB 3.0 compliant

ETH 1-2 LOM (Lan on Motherboard) 2 x 1Gbps

ETH 3-4 2 x RJ45 10Gbps (standard). SFP NIC options available. Other configurations available.

P1-P2 2 x Quick Swap Redondant 1400W PSU - IEC C13

NVIDIA QUADRO SYNC II (optional)

ETH Sync 1-2 2 x RJ-45 multi-server output synchronisation (frame-lock). Only used when SDI Sync is not available

LED 3-4 Status LEDs. For more information see the Status LED indicators section in the Quadro Sync II manual.

SDI SYNC 1 x BNC genlock signal from house system. Blackburst and Tri-Level Sync supported.

¹ - Illustrated model with 2 x RTX A5000, 8 x 3G-SDI input, and 5 x NVME RAID options.

Back panel and final specification may change based on the chosen options.

Outputs (license + hardware options)

- 2 x 4K model (4 x 2K || 3 x 3K) - 1 x GPU
- 4 x 4K model (8 x 2K || 6 x 3K) - 2 x GPU
- 2K includes all resolution horizontally ≤ 2048
- 3K includes all resolution horizontally ≤ 3072
- 4K includes all resolution horizontally ≤ 4096

Outputs must be physically present on the hardware and enabled in the software license. Tested splitting hardware compatible to allow more physical display outputs : AJA HA5-4K / Datapath FX4-DVI / Datapath FX4-SDI Please contact us for compliance testing if you plan to use other splitting hardware.

Dimensions

	W	H	D
Packed Dimensions	670mm 26.4"	320mm 12.6"	960mm 37.8"

Weight

Server Weight	25 kg	55.1 lbs
Packed Weight	32 kg	70.5 lbs

In the Box

- The server & its bezel
- ReadyRails II™ sliding rails
- 2 x 5-15P to C13 power cables
- 8 x DIN 1.0/2.3 TO BNC male cables (only with the Corvid 88)

Electrical & Operating Requirements		
Line voltage	100–240V AC (auto-switching)	
Frequency	50Hz to 60Hz, single phase	
Typical electric consumption in show operation	1000W AVG (with configuration as shown in the picture)	
Maximum electric consumption	2800W	
Operating temperature	10° to 35° C (50° to 95° F)	
Relative humidity	10% to 90% noncondensing	
Heat output (show operation avg)	3200 BTU/Hr	
Maximum heat output	8600 BTU/Hr	
Server Hardware		
CPU	Dual Intel® Xeon® Silver 2.8Ghz	
GPU	NVIDIA RTX A5000 Standard	
Memory	128 GB DDR4 RAM	
Audio	Optional ASIO USB sound card / Dante	
Operating System	Windows Server 2019	
Warranties & Support		
Hardware <ul style="list-style-type: none"> 3 years 24/7 next business day on-site support facilitated by Dell EMC. (terms & conditions apply, contact us for more information). Software <ul style="list-style-type: none"> 3 years software updates included. Additional update plans available. Phone and email support <ul style="list-style-type: none"> Servers, other parts and software - 3 years email and phone support by VYV, available from Monday to Friday, 9am to 5pm EST.
